To Whom It May Concern,

I am writing to express my interest in an On-the-Job Training position at your company. I am currently pursuing a Bachelor of Science in Computer Engineering at the Polytechnic University of the Philippines Sta. Mesa, and I am eager to gain hands-on experience in the industry.

As a third-year student, I have gained several experiences in software development through lectures and school activities as well as a previous 300-hour internship training at Compass Integrated Solutions, inc. I am very motivated to learn and grow. I am confident that this internship will be a great opportunity to apply my academic knowledge in a practical setting. I am a proactive team member with strong communication skills, and I am excited about the prospect of working with experienced professionals to create innovative solutions.

Thank you for considering my application. I have attached my resume, which includes more information about my education and related activities. I look forward to the possibility of contributing to your company.

Yours Sincerely,

KATRINA RICCI C. BATIN
